## 1. INTRODUCTION

- (1) In accordance with Article 60(3) of Regulation (EU) 2019/943 on the internal market for electricity (hereafter: Electricity Regulation) and Article 14 of Regulation (EU) 2019/942, ACER conducted a public consultation with all stakeholders from 15 April to 10 June 2021.
- (2) Participants were asked to provide their view on the current status of the proposed amendments' by evaluating the contribution to the Electricity Regulation, the importance of topics and including a detailed opinion on the proposals. Furthermore, participants had the option to include an additional reasoning and amendments if deemed necessary.
- (3) The number of participants was 56 with a broad range of different market participants from different Member States. The detailed contributions and the evaluation of responses to the public consultation was published in a Power Bi Report.<sup>1</sup>
